- **Love letter to the buyer:** We found this lot and fell in love with the neighborhood.

It is quiet and peaceful away from the big city where I work in downtown Raleigh. The neighbors are friendly and there is always someone out to stop and chat. It has an invite yourself atmosphere so if you see someone outside, you walk over to have a drink and chat for a while. Our neighbors are always willing to lend a hand when they see someone working outside. I love coming home at night and being able to actually see all of the stars in the sky! It is beautiful. I also love simply sitting on my back deck to read or sitting on my front porch watching life.
